

# Quilting 5

## Pine Tree Quilt

The Pine Tree Quilt design is a wonderful way to learn how to get more bang out of your rulers that will save you time and fabric as you create a quilted forest of tall-and-slender or short-and-chubby pine trees. Although the class project sample is done in flannel and brushed muslin for a cozy winter quilt, the design works just as nicely with quilting cotton. But, as an extra plus in this class there will be a thorough review on working with heavier fabrics like flannel.

This class will build upon your skills learned in the Quilting Basics 1 & 2 classes. Students' sewing machines must be able to do a quarter-inch seam and a straight stitch.

### Prerequisites for this class include:

- 1) Basic Machine Training
- 2) Beginning Sewing
- 3) Quilting Basics 1
- 4) Quilting Basics 2
- 5) Or, prior approval by instructor.

## Supply List

### Fabrics for class:

- **Main BACKGROUND fabric** - 1 yard  
Note: Choose a fabric that is solid or reads as non-directional solid from a couple feet away

#### Pre-class preparation:

- Cut FOUR 2.5 inches X WOF strips
