

Quilting 9

Crazy Quilting

without going crazy

with Accuquilt

Slash your stash and finally put all those decorative stitches your sewing machine offers to good—and fun—use. In this class, using the Accuquilt GO! Big fabric cutter and its 10-inch crazy quilt die (#55861), create a stitch sampler while learning how to cut fabric and keep the 10 pieces in a single block under control so as not to drive yourself crazy. And, then turn your stitch sampler into a pillowcase or a quilt using fusible and tearaway stabilizers insure smooth decorative stitching as the final magic begins with the threads you choose to really go crazy with—endless decorative stitch choices in colors, metallic and embroidery weight threads.

Supply List

Fabrics:

Note: Please choose fabrics that do not have a directional print for class project, however, working with directional fabrics will be discussed during class.
