**Quilting TWO**  
**Pre-class fabric preparation**

This medallion sampler quilt is designed with a strong contrast between the background fabric and the various coordinating fabrics.

So, if you wish to have a dark background fabric, choose light and/or bright coordinating fabrics. If you wish to have a light background, choose medium to dark (or brightly colored) coordinating fabrics.

It is important that your background fabric is a solid or that it reads as a solid color fabric from a few feet away.
